

## WHY FAIRLOP PRIMARY SCHOOL USES AB TUTOR

### Background:

Fairlop primary moved from a similar software product to AB Tutor because of issues they were experiencing. They have stayed with AB Tutor because it assists with E-Safety, saves money on power management.

### Set up:

1 license, 1 computer suite for 30 students and 10 members of staff actively use the set up.

### Features:

"At the moment, we only use 1 licence in our ICT suite predominantly in my lessons which cover PPA time. The ability to demonstrate direct to the student to enable them to focus on where your mouse/cursor is moving to and follow a process is invaluable, as is the ability to lock the screens to command their attention when necessary. I would estimate that approx. 10 staff use AB Tutor in this way at the moment, but recently the Early Years teachers have mastered logging on as a whole class for Reception children."

### Testimonial:

"we find it an extremely useful product which we have consistently used since we first purchased, which is not something I can with confidence about all our software! It assists with demonstration, administration and student-focus and as you know, we are now are looking into whether we can use it with our KS2 laptops. I feel it helps to raise teacher's confidence levels, assists with E-Safety incidents and saves money due to the power management option. I wouldn't be without it!"

*“ All 50 staff who use the lab were blown away with the program, especially those teachers who teach the younger grades. ”*
